FRAMEWORK EDUCATION

01

INFRASTRUCTURE GENERATION

Units are generated at **KDIA Re Park** centralized renewable hubs, secured by long-term power purchase agreements.

02

VIRTUAL ALLOCATION

Your intent records a **reserved allocation** in the centralized ledger, tied uniquely to your utility Consumer ID.

03

DISCOM SETTLEMENT

Allocated units act as **bill-offsets** via Virtual Net Metering (VNM) protocols on your regular DISCOM electricity ledger.

04

SEAMLESS CONTINUITY

Benefit from clean energy **without rooftop installations**. Maintain your existing grid reliability with KDIA yield benefits.

*VIRTUAL & GROUP NET METERING IS GOVERNED BY STATE RENEWABLE MANDATES.
PRIORITY IS GIVEN TO EARLY-MOVERS UNDER THE INITIAL EIP TRANSITION PHASE.*
